steraClean

75% Alcohol based Gel Hand Sanitizer with Broad-Spectrum Antimicrobial action against pathogenic microorganisms

SteraClean is an alcohol-based gel hand sanitizer with broad-spectrum antimicrobial activity against pathogenic microorganisms and bacteria. SteraClean formulation of 75% (v/v) isopropanol, glycerol and 0.125% (v/v) hydrogen peroxide by volume, provides hand antisepsis and moisturizing at the same time and it is recommended by WHO (formulation 2).

For use where immediate, waterless hand degerming compliance is needed. Mild formulation for hand comfort. Formulated for high frequency professional use. For use as a Surgical Scrub to provide immediate antimicrobial efficacy.

HACCP Compliance, performing under ISO EN 1276:2019 (Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas.), ISO EN 1650:2019 (Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of fungicidal or yeasticidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas.) and ISO EN 14476:2013+A2:2019 (Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of virucidal activity in the medical area.)

Application:

Apply a palmful of alcohol-based product to the palm of one hand and rub the product all over the surface of your hands until your hands become dry.

Safety:

Refer to the Safety Data Sheet or the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) statements on the label of the packaging.
Avoid contact with eyes. Keep out of reach of children. Flammable: keep away from flame and heat.
